

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety purposes only. I don't feel I or others like me should be penalized for using a phone in this manner. Please reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Dale Miller
